

Investment Approach:

The Newscapē Managed Portfolio Service offers a range of risk graded multi-asset portfolios. There are 5 total return portfolios ranging from Defensive through to Growth. Our base case Strategic Asset Allocations, which are constructed with reference to 20 years of underlying asset class data, aim to optimise expected return at a given level of risk over the longer term. The 'Blended Style' portfolios predominately hold passively managed Investment funds. However, actively managed funds are also used where we believe they can add value without taking the Ongoing Charges Figure (OCF) of the portfolio above 0.3%.

Portfolio Objective:

The objective is to deliver a total annual return in the range of 5.2% - 7.5% over the longer term.

Portfolio Risk:

A medium risk portfolio which aims to provide investors with access to a broad spectrum of asset classes and a more balanced or medium level of risk and return. (Volatility target 5.0% - 9.0% per annum over the longer term).
