

Investment Approach:

The Newscap Managed Portfolio Solution (NMPS) is a range of risk graded multi-asset portfolios, with strategies ranging from Defensive to Growth (& Income), aimed at the medium-longer term investor. A "tactical" asset allocation overlay allows the strategic allocations to be adjusted in order to take advantage of 'shorter term' market opportunities and/or limit exposure to asset classes deemed to have 'shorter term' market risk. The 'Passive' mandate is fulfilled through the use of passive investment funds (including trackers & Exchange Traded Funds) using our top-down investment process.

Portfolio Objective:

The objective is to deliver a total annual return in the range of 4.5% - 6.0% over the longer term.

Portfolio Risk:

A lower to medium risk portfolio which aims to provide investors with more stable returns than portfolios with a greater focus on growth. (Volatility target 4.0% - 7.0% per annum over the longer term).
